Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The examiner and Mr. Brieger discussed possible amendments to the claims and whether or not they could overcome the current final rejection. The proposed amendments "...and to store features data regarding advanced services features of the foreign network;" and "by referring to the features data stored in the second data storage unit to determine whether the mobile subscriber unit is capable of receiving the contracted advanced service in the foreign network" looked good enough for the examiner to say that the current rejection could be overcome with these amendments.
